XtremeTrim® Water Management System - Vertical Reveal

07 46 00 (SIDING ACCESSORIES)

DESIGN FEATURES

Designed to create a uniform, aesthetically consistent vertical reveal between panels.

MATERIAL

6063-T5 .050" ± .005 extruded aluminum alloy with proprietary coating that protects against harsh weather conditions and allows for paint adhesion.

FINISH

Unless specified all XtremeTrim® items are provided in primed finish. Also available in popular siding/soffit colors in standard face only color match or full coverage CoastalColorCoating™. Clear Anodized is stocked and custom anodized is available (minimums apply).

NOTE

Use of the XtremeTrim® Vertical Reveal at horizontal joints is not recommended.

WATER MANAGEMENT FEATURES

The patented, unique ribbing of the back leg mitigates water intrusion by providing multiple downflow channels to move water. The stand off rib on the out leg of the profiles assure proper panel application.

W series profiles must be used together as a system and not with other XtremeTrim® profiles.
